

## **Veterans Fighting to keep America Free.**

It could be any nation in the world, Zimbabwe, South Africa, Mexico or any other state. They just call them different to Veterans.

Americans are confused with the economic downturn and for the first time aware where they spend their money. Here is an extract from their World News Today.

Lost U.S. Jobs should not be our primary concern, said McCain

McCain said Social Security is a disgrace and he is not concerned about jobs for the American people. He is not concerned about the elderly of this nation. We do not hear McCain say anything about the millions we give to foreigners that come to America to retire, McCain like Bush does not care about the middle class, the elderly and the poor of this nation, McCain needs to go when Bush leaves office.

The Mexicans trucks that Bush let cross our borders has spread drugs all across the nation, Mexican gangs have taken over Mexico and are now working on taking control of America. Bush and the Republicans in office refused to secure our borders, to protect this nation and the people.

It is time to support President Obama and remove the corrupt politicians from office.

Free trade has made America a sales hub for China and other foreign countries, nothing is made in America and the economy will only get worse until the corrupt politicians restore this nation and put the American people back to work. Spending money with out jobs is a joke, what happened to the first 350 billion bail out?

McCain wants France to build our military aircraft that will cost you and I billions and create thousands of jobs for France!

President Elect Obama, is an American, his blood line is half white, part Arab and the rest black, why is the news media refusing to report the facts. Obama is not an African American!

THE FAR LEFT BLACKS NEED TO WAKE UP AND BE AMERICANS OR GET OUT OF THE COUNTRY, AMERICA IS A NOT A RACIAL NATION, ONLY THE RACIST BLACKS THAT HAVE BEEN RIDING A GRAVY TRAIN MAKING MILLION KEEPING THE NATION DIVIDED ALONG WITH THE HELP OF SOME POLITICIANS. YOUR FREE RIDE IS OVER, NO MORE EXTORTING MONEY FROM FANNIE MAY MR. JACKSON AND SHARPTON. WAKE UP AMERICA, OBAMA AN AMERICAN

This summer, a House subcommittee uncovered evidence of graft in the more than \$6 billion worth of US military aid that went to Musharraf's government.

Haqqani is also seeking an additional \$10 billion loan from the United States at a "Friends of Pakistan" summit in the United Arab Emirates on Nov. 17.

President-elect Barack Obama supports a plan to give Pakistan a \$1.5 billion "bonus" if it remains a democratic state.

## **Creating Jobs in Europe, Not America**

The indignation of Americans is growing rapidly about the U.S. Air Force granting a French company a \$35 billion tanker-aircraft contract that could eventually grow to \$100 billion and is estimated to create 100,000 jobs in Europe. French government subsidies are one of the factors that enabled the lucky company (known as EADS) to underbid Boeing.

Rep. Duncan Hunter (CA), the ranking Republican on the House Armed Services Committee, is leading the battle in Congress to overturn this decision. He thinks it is outrageous that U.S. Taxpayers should be paying to create jobs in foreign countries.

That is what Denel claims it is going through with arms dealings.
